Core Corporate Services

International Advised Giving Options

A Donor Advised Fund is a flexible tool for corporate donors seeking to support nonprofit initiatives across the globe. Claim an immediate tax deduction when you contribute to your fund and then recommend grants to favorite charities at your convenience. Myriad USA offers a competitive pricing structure and flexible solutions like one-off advised gifts and American Friends Funds for foreign grantees.

Personalized Stewardship

Every corporate partner receives the direct support of a relationship manager and a team of regional experts to advise on their grantmaking portfolio and local regulations. We can work with your established grant portals such as Cybergrants and SmartSimple, or accommodate additional process requirements as needed.

Enhanced Due Diligence & Risk Mitigation

Myriad USA performs due diligence on all international grantees to ensure compliance with U.S. regulations and local laws, following expenditure responsibility or equivalency determination processes. We excel in navigating complex environments and work with local, in-country experts to ensure a thorough level of risk management. Our verifications go beyond minimum requirements and include reputational checks so that our donors can give with confidence.

Advisory Plus Services

Through Advisory Plus services, corporations and foundations can enhance their donor advised giving with advisory and consulting services. Myriad USA leverages our networks of local and regional experts to help donors enhance their grantmaking goals. Examples of our additional services include:

- Research and landscaping to support strategy development

Thoughtful Disaster Giving Options

Disaster Response Funds enable donors to give quickly and confidently during disasters or humanitarian crises. Donors can set up their own fund for a specific response effort and invite their employees to contribute, or support pooled funds that benefit trusted, effective nonprofits in affected communities.

In addition to event-specific campaigns, Myriad USA launched DisasterLink, a prepositioned network of 70 partners in 38 countries at high risk or vulnerability for natural disasters. Each organization is a trusted member of their community and highly invested in the areas they serve, ready to activate immediately and help communities rebuild and recover in the long term.
