\$50M+ in Disaster Giving since 2020

DisasterLink: A Global Network for Immediate, Local Response and Long-Term Recovery

We launched DisasterLink to increase funding to local responders and expedite giving to partners in high-risk countries, enabling faster relief and preparation for future disaster risks.

- These organizations are set up with fiscally sponsored funds, allowing donations to reach local communities within 24 hours.
- Local nonprofits activate quickly and support all phases of a disaster: preparedness, relief, response, and recovery.

When a Disaster Strikes

- Myriad USA taps into the DisasterLink network or evaluates new partners to activate a campaign within 24 hours of a global crisis event.
- Donors can support these prepositioned organizations or recommend a grant directly to a new organization.
- Myriad USA deploys grants for both urgent aid and long-term recovery.
